

36th International Conference on Software Engineering

ICSE 2014

Hyderabad, India • May 31 - June 7, 2014

ACM Student Research Competition (SRC)

Important Dates

Submissions:
November 22, 2013
Notification:
January 31, 2014
Camera ready:
March 7, 2014

SRC Co-Chairs

Aditya V. Nori, Microsoft Research, India
Romain Robbes, Univ. of Chile, Chile

SRC Program Committee

Alberto Bacchelli, Delft Univ. of Technology, the Netherlands
Earl Barr, Univ. College London, UK
Alexandre Bergel, Univ. of Chile, Chile
Eric Bodden, Fraunhofer SIT and Technische Univ. Darmstadt, Germany
Thomas Fritz, Univ. of Zurich, Switzerland
Shi Han, Microsoft Research Asia, China
Akash Lal, Microsoft Research, India
Walid Maalej, Univ. of Hamburg, Germany
Mayur Naik, Georgia Tech, USA
Daryl Posnett, Univ. of California, Davis, USA
Michael Pradel, ETH Zurich, Switzerland
Neha Rungta, NASA Ames Research Center, USA
Koushik Sen, Univ. of California, Berkeley, USA
Mike Whalen, Univ. of Minnesota, USA
Tao Xie, Univ. of Illinois at Urbana-Champaign, USA
Xiangyu Zhang, Purdue Univ., USA
Thomas Zimmermann, Microsoft Research, USA

For More Information

For additional information, visit the official ACM Student Research Competition website at <http://2014.icse-conferences.org/src>

ICSE 2014 will host an ACM Student Research Competition (SRC), sponsored by Microsoft Research. This competition offers undergraduate and graduate students a unique forum to experience the research world, present their research results to ICSE attendees, and compete for prizes.

The ACM SRC at ICSE 2014 consists of three parts: (1) research abstract submission; (2) poster presentation; and (3) research talk. The winners of the competition will be invited to participate in the ACM Student Research Competition Grand Finals.

Participate in this exciting competition: Submit your work to the ACM Student Research Competition at ICSE 2014. **Win a travel stipend to attend the ICSE conference in Hyderabad!**

How to Participate: Submit a Research Abstract

To participate in the competition, submit a 2-page research abstract related to the main themes of the conference (see <http://2014.icse-conferences.org/topics> for a list of conference topics). The submission should describe: the research problem and motivation, background and related work, approach and uniqueness, results, and contributions. Papers will be judged based on how well they cover these aspects of the work.

The research abstract must conform at time of submission to the ICSE 2014 formatting and submission instructions, and must not exceed 2 pages, including all text, appendices, and figures. However references do not count against the page limit: the list of references may expand into a third page, i.e., the third page, if any, should contain nothing except all or part of your references. All submissions must be in English and in the PDF format.

Papers must be submitted electronically through CyberChair by November 22, 2013. A panel of experts will review the submissions and select the students to participate in the Student Research Competition, which will be held at ICSE 2014 in Hyderabad, India. Accepted submissions will be published in the conference proceedings. Students who are selected to participate in the main competition at the ICSE conference round are entitled to a stipend for their travel expenses, up to a maximum of US\$500.

Prizes

The top three winners in each category (undergraduate and graduate) will be recognized during the conference and will receive prizes of US\$500, US\$300, and US\$200, respectively. The winners of the ICSE SRC are also invited to compete with winners from other conferences in the ACM Student Research Competition Grand Finals.

Requirements

Participants must be undergraduate or graduate students pursuing an academic degree at the time of initial submission. Participants must be current student members of the ACM, and must provide their ACM member number. Supervisors of the work may not be listed as co-authors; you must submit a single-authored version of your work for the competition.
